

### Dissemination map

- This is one of the most important parts in the project. It is extremely important to the Jacobs Foundation that the findings will be shared with the professionals, practitioners, and decision and policy makers. To influence, as much as possible child policy.
- In any report, publication or presentation the Jacobs Foundation should be mentioned. Please make use of the attached slide show template for presentations.
- Below you can find a map of the areas / themes in which we should focus on dissemination, with some examples for ideas. Each PI should ensure that maximum efforts are being done to widely and variedly disseminate the project and findings in your country.
- Please inform Tamar with any action done on the subject, accompanied by a brief explanation and details about what was done. So that we can report to Jacobs about all activities carried out, and we can also share ideas among colleagues.
